## **Part I Principles And Concepts**

|   |  |    |
|---|--|----|
| 1 | structural diagnosis and manipulative medicine History | 2  |
| 2 | Principles of structural diagnosis                     | 12 |
| 3 | Barrier concepts in structural diagnosis               | 37 |
| 4 | The manipulative Prescription                          | 41 |
| 5 | normal Vertebral motion                                | 49 |
| 6 | concepts of Vertebral motion dysfunction               | 63 |

## **Part II Principles Of Techniques**

|    |  |     |
|----|--|-----|
| 7  | Principles of soft-Tissue and other Peripheral stimulating Techniques          | 70  |
| 8  | Principles of muscle energy Technique  | 97  |
| 9  | mobilization With and Without impulse Technique                                | 103 |
| 10 | Principles of indirect Technique   | 109 |
| 11 | Principles of myofascial release and integrated neuromusculoskeletal Technique | 148 |

## **Part III Techniques Procedures**

|    |                           |     |
|----|---------------------------|-----|
| 12 | cranial Technique         | 160 |
| 13 | cervical spine Technique  | 179 |
| 14 | Thoracic spine Technique  | 213 |
| 15 | rib cage Technique        | 246 |
| 16 | lumbar spine Technique    | 288 |
| 17 | Pelvic Girdle dysfunction | 314 |
| 18 | upper extremity Technique | 375 |
| 19 | lower extremity Technique | 419 |

## **Part IV Clinical Integration And Correction**

|    |   |     |
|----|---|-----|
| 20 | common clinical Problems of the Lower Quarter                   | 464 |
| 21 | common clinical Problems of the Thorax, upper Quarter, and neck | 497 |
| 22 | adjunctive diagnostic Procedures                                | 502 |

|       |     |
