

Brief Contents

Unit One: Basic Concepts	1
<hr/>	
CHAPTER 1: Basic Concepts in Kinesiology: Kinematics	2
CHAPTER 2: Mechanical Principles: Kinetics	28
CHAPTER 3: The Movement System: Nerve and Muscle Physiology and the Control of Human Movement	82
CHAPTER 4: Muscle Activity and Strength	125
Unit Two: Upper Quarter	159
<hr/>	
CHAPTER 5: Shoulder Complex	161
CHAPTER 6: Elbow and Forearm Complex	217
CHAPTER 7: Wrist and Hand <i>Ingrid Provident, EdD, OTR/L, and Peggy A. Houglum, PhD, PT, ATC</i>	254
CHAPTER 8: Head, Neck, and Trunk <i>Christopher R. Carcia, PhD, PT, SCS, OCS</i>	314
Unit Three: Lower Quarter	369
<hr/>	
CHAPTER 9: Pelvis and Hip <i>Dolores B. Bertoti, MS, PT, and Christopher R. Carcia, PhD, PT, SCS, OCS</i>	370
CHAPTER 10: Knee	423
CHAPTER 11: Ankle and Foot	474
Unit Four: Functional Activities	533
<hr/>	
CHAPTER 12: Stance and Gait	535
CHAPTER 13: Kinesiology Applications in Daily Functional Activities	593
CHAPTER 14: Kinesiology Applications of Upper Extremity Activities of Daily Living <i>Ingrid Provident, EdD, OTR/L, and Peggy A. Houglum, PhD, PT, ATC</i>	617
CHAPTER 15: Sports and Recreation	634
