Preface.....	ix
Acknowledgments.....	xi
Contributors	xiii
Part I: Foundations of Human Anatomy and Physiology	1
1 Framework for Anatomy and Physiology.....	3
<i>Samuel R. Atcherson, Melanie L. Meeker, and Bonnie K. Slavych</i>	
2 Composition of the Body: Cells, Tissues, Organs.....	31
<i>Elizabeth Erickson-DiRenzo and Daniel DiRenzo</i>	
3 Genetics.....	73
<i>Barbara A. Lewis, Sudha K. Iyengar, and Catherine M. Stein</i>	
4 Embryology and Development of the Speech and Hearing Mechanism	103
<i>Steven L. Goudy and Christen Lennon</i>	
Part II: Foundations of the Nervous System	135
5 Neuroanatomy.....	137
<i>Torrey Loucks and Li-Hsin Ning</i>	
6 Neurophysiology.....	171
<i>Michelle R. Ciucci, Erwin B. Montgomery Jr., and Lyn S. Turkstra</i>	
7 Suprasegmental Motor Control	191
<i>Erwin B. Montgomery Jr., Michelle R. Ciucci, and Lyn S. Turkstra</i>	
8 Peripheral Motor Control.....	233
<i>Mary J. Sandage and David D. Pascoe</i>	
9 Sensory Systems.....	263
<i>Richard D. Andreatta and Nicole M. Etter</i>	
Part III: The Anatomy and Physiology of Speech and Language, Swallowing, Hearing, and Balance	309
10 Respiration	311
<i>Erin P. Silverman and Bari Hoffman Ruddy</i>	
11 Phonation	351
<i>Christopher R. Watts</i>	
12 Articulation and Resonance.....	391
<i>Kate Bunton and Jessica E. Huber</i>	
13 Hearing	443
<i>Jason Tait Sanchez and Tina M. Grieco-Calub</i>	
14 Swallowing	483
<i>Michelle S. Troche and Alexandra E. Brandimore</i>	
15 Balance	523
<i>Elizabeth Meztista Adams</i>	
Glossary.....	557
Index.....	611
