Preface xi | Acknowledgments xiii | Accessing the Web Resource xiv

<b>Part I</b>	<b>Principles of Examination</b>	<b>1</b>
<b>Chapter 1</b>	<b>Anatomical Nomenclature and Injury Classifications</b>	<b>3</b>
	Anatomical Reference Terminology . . . . .	4
	Physical Maturity Classifications . . . . .	4
	Injury Classifications . . . . .	6
	Sign Versus Symptom . . . . .	6
	Acute Versus Chronic . . . . .	7
	Closed (Unexposed) Wounds . . . . .	7
	Closed Soft Tissue Injuries . . . . .	7
	Bone and Joint Articulations . . . . .	9
	Nerve Injuries . . . . .	12
	Open (Exposed) Wounds . . . . .	12
	Summary . . . . .	14
	Learning Aids . . . . .	14
<b>Chapter 2</b>	<b>Principles of Examination: An Overview</b>	<b>17</b>
	Proper Use of Terminology . . . . .	18
	Examination Components . . . . .	19
	Injury Survey . . . . .	19
	SINS . . . . .	19
	Subjective and Objective Segments . . . . .	20
	Testing During the Objective Segment . . . . .	21
	Determining an Appropriate Course of Action . . . . .	27
	Documenting the Examination . . . . .	27
	Standard Abbreviations . . . . .	28
	SOAP Notes . . . . .	31
	Summary . . . . .	32
	Learning Aids . . . . .	34
<b>Chapter 3</b>	<b>Taking a History</b>	<b>37</b>
	Information to Seek . . . . .	38
	Information Categories . . . . .	38
	Signs and Symptoms . . . . .	39
	Situation-Specific History and Depth of Inquiry . . . . .	40
	Essential History (Emergent Examination) . . . . .	40
	Focused History (On-Site Examination) . . . . .	41
	Detailed History . . . . .	41
	Summary . . . . .	43
	Learning Aids . . . . .	44

<b>Chapter 4</b>	<b>Observation</b>	<b>47</b>
	System of Observational Examination . . . . .	48
	Global Observation . . . . .	48
	Specific Observation . . . . .	49
	Details of Specific Observation . . . . .	50
	Examination of Posture . . . . .	50
	Examination of Gait . . . . .	52
	Specific Observation of the Injury . . . . .	57
	Summary . . . . .	59
	Learning Aids . . . . .	59
<b>Chapter 5</b>	<b>Palpation</b>	<b>63</b>
	General Principles . . . . .	64
	Foundational Skills . . . . .	64
	Palpation Technique . . . . .	65
	Structures to Palpate . . . . .	65
	Skin . . . . .	65
	Fascia . . . . .	66
	Myotendinous Unit . . . . .	66
	Bone . . . . .	67
	Joint Structures . . . . .	68
	Neurovascular Tissue . . . . .	69
	Lymph Nodes . . . . .	70
	Palpation Strategies . . . . .	70
	Summary . . . . .	71
	Learning Aids . . . . .	71
<b>Chapter 6</b>	<b>Examination of Joint Motion</b>	<b>75</b>
	Goals and Purposes . . . . .	76
	Normal Range of Motion . . . . .	76
	Prerequisites for Successful ROM Examination . . . . .	77
	Physiological Motion . . . . .	78
	Accessory Motion . . . . .	80
	Examination of Physiologic Range of Motion . . . . .	81
	Positioning . . . . .	81
	Patient Stabilization and Substitution . . . . .	82
	Measurement Technique . . . . .	83
	Examination of Accessory Motion . . . . .	84
	Joint Accessory Movement Rules . . . . .	84
	Joint Accessory Examination Technique . . . . .	85
	Recording Results . . . . .	86
	Examination of Ligament and Capsule Integrity . . . . .	87
	Indications for Ligament Stress Tests . . . . .	87
	Grading of Ligament Laxity . . . . .	87
	Stress Test Technique . . . . .	87
	Summary . . . . .	88
	Learning Aids . . . . .	89

<b>Chapter 7</b>	<b>Examination of Strength</b>	<b>91</b>
	Muscle Contraction . . . . .	92
	Functional Neuromuscular Anatomy . . . . .	92
	Review of Excitation–Contraction Coupling . . . . .	93
	Goals and Purposes . . . . .	94
	Manual Strength Examination . . . . .	94
	Break Tests . . . . .	95
	Manual Muscle Testing . . . . .	95
	Instrumented Strength Examination . . . . .	97
	Isometric Strength Examination . . . . .	98
	Isotonic Strength Examination . . . . .	101
	Isokinetic Strength Examination . . . . .	103
	Summary . . . . .	108
	Learning Aids . . . . .	108
<b>Chapter 8</b>	<b>Examination of Neurological Status</b>	<b>113</b>
	Functional Neuroanatomy . . . . .	114
	General Principles of the Neurological Exam . . . . .	114
	Goal and Purpose . . . . .	115
	Sensory Function Testing . . . . .	116
	Motor Function Testing . . . . .	117
	Reflex Testing . . . . .	117
	Region-Specific Neurological Examination . . . . .	119
	Cervical Plexus . . . . .	121
	Brachial Plexus . . . . .	122
	Lumbar and Sacral Plexuses . . . . .	126
	Summary . . . . .	132
	Learning Aids . . . . .	134
<b>Chapter 9</b>	<b>Examination of Cardiorespiratory Status</b>	<b>139</b>
	Functional Anatomy and Physiology . . . . .	140
	Lungs . . . . .	140
	Heart . . . . .	140
	Peripheral Circulation . . . . .	141
	Examination of Cardiorespiratory Status . . . . .	145
	Systemic Perfusion (Vital Signs) . . . . .	145
	Peripheral Circulation . . . . .	148
	Cardiovascular Compromise . . . . .	149
	Causes and Types of Cardiovascular Collapse (Shock) . . . . .	149
	Recognition of Shock . . . . .	151
	External Bleeding . . . . .	152
	Summary . . . . .	152
	Learning Aids . . . . .	153

<b>Chapter 10</b>	<b>Putting It All Together: General Examination Strategies</b>	<b>157</b>
	On-Site Examination . . . . .	158
	Goals and Purposes. . . . .	158
	On-Site Examination of the Unconscious Athlete . . . . .	159
	On-Site Examination of the Conscious Athlete. . . . .	162
	Communicating On-Site Examination Results. . . . .	164
	Acute Examination. . . . .	164
	Subjective Segment. . . . .	165
	Objective Segment . . . . .	165
	Clinical Examination. . . . .	166
	General Principles of the Clinical Examination . . . . .	166
	Subjective Segment. . . . .	167
	Objective Segment . . . . .	167
	Summary . . . . .	169
	Learning Aids . . . . .	170
<b>Part II</b>	<b>Region-Specific Examination Strategies</b>	<b>173</b>
<b>Chapter 11</b>	<b>Cervical and Upper Thoracic Spine</b>	<b>175</b>
	Functional Anatomy. . . . .	176
	Regional Examination . . . . .	178
	Palpation . . . . .	179
	Range of Motion . . . . .	179
	Strength. . . . .	180
	Neurological Examination. . . . .	183
	Injury Recognition and Special Tests . . . . .	183
	Acute Soft Tissue Injuries . . . . .	183
	Chronic or Overuse Soft Tissue Injuries. . . . .	184
	Bone and Joint Pathologies . . . . .	185
	Nerve and Vascular Injuries . . . . .	188
	Structural and Functional Abnormalities . . . . .	201
	Injury Examination Strategies . . . . .	202
	On-Site Examination. . . . .	203
	Acute Examination . . . . .	204
	Clinical Examination . . . . .	206
	Summary . . . . .	211
	Learning Aids . . . . .	211
<b>Chapter 12</b>	<b>Shoulder and Arm</b>	<b>215</b>
	Functional Anatomy. . . . .	216
	Regional Examination . . . . .	218
	Palpation . . . . .	219
	Range of Motion . . . . .	220
	Strength. . . . .	228
	Neurovascular Examination . . . . .	229
	Injury Recognition and Special Tests . . . . .	231
	Acute Soft Tissue Injuries . . . . .	231
	Chronic or Overuse Soft Tissue Injuries. . . . .	252

Traumatic Fractures . . . . .	259
Bony or Cartilaginous Lesions Secondary to Trauma or Repetitive Stress . . . . .	260
Neurovascular Injuries . . . . .	265
Structural and Functional Abnormalities . . . . .	266
Injury Examination Strategies . . . . .	267
On-Site Examination. . . . .	267
Acute Examination . . . . .	268
Clinical Examination . . . . .	271
Summary . . . . .	274
Learning Aids . . . . .	275
<b>Chapter 13 Elbow and Forearm</b>	<b>279</b>
Functional Anatomy. . . . .	280
Regional Examination . . . . .	282
Palpation . . . . .	282
Range of Motion . . . . .	282
Strength. . . . .	285
Neurovascular Examination . . . . .	286
Injury Recognition and Special Tests . . . . .	287
Acute Soft Tissue Injuries . . . . .	287
Chronic or Overuse Soft Tissue Injuries. . . . .	292
Traumatic Fractures . . . . .	297
Bony Lesions Secondary to Repetitive Stress . . . . .	299
Dislocation and Subluxation . . . . .	300
Neurovascular Injuries Secondary to Trauma . . . . .	302
Nerve Compression Syndromes . . . . .	303
Structural and Functional Abnormalities . . . . .	307
Injury Examination Strategies . . . . .	308
On-Site Examination. . . . .	308
Acute Examination . . . . .	308
Clinical Examination . . . . .	312
Summary . . . . .	314
Learning Aids . . . . .	315
<b>Chapter 14 Wrist and Hand</b>	<b>319</b>
Functional Anatomy. . . . .	320
Regional Examination . . . . .	322
Palpation . . . . .	322
Range of Motion . . . . .	323
Strength. . . . .	328
Neurovascular Examination . . . . .	330
Injury Recognition and Special Tests . . . . .	333
Acute Soft Tissue Injuries . . . . .	333
Chronic or Overuse Soft Tissue Injuries. . . . .	339
Traumatic Fractures and Dislocations . . . . .	344
Nerve and Vascular Injuries . . . . .	348
Structural and Functional Abnormalities . . . . .	354

Injury Examination Strategies . . . . .	354
On-Site Examination . . . . .	354
Acute Examination . . . . .	356
Clinical Examination . . . . .	358
Summary . . . . .	360
Learning Aids . . . . .	362
<b>Chapter 15 Lower Thoracic and Lumbar Spine</b> . . . . .	<b>367</b>
Functional Anatomy . . . . .	368
Regional Examination . . . . .	369
Palpation . . . . .	371
Range of Motion . . . . .	371
Strength . . . . .	375
Neurological Examination . . . . .	375
Injury Recognition and Special Tests . . . . .	376
Acute and Chronic Soft Tissue Injuries . . . . .	377
Bone and Joint Pathologies . . . . .	377
Nerve Compression . . . . .	382
Structural and Functional Abnormalities . . . . .	389
Injury Examination Strategies . . . . .	391
On-Site Examination . . . . .	391
Acute Examination . . . . .	393
Clinical Examination . . . . .	395
Summary . . . . .	398
Learning Aids . . . . .	399
<b>Chapter 16 Leg, Ankle, and Foot</b> . . . . .	<b>403</b>
Functional Anatomy . . . . .	404
Regional Examination . . . . .	407
Palpation . . . . .	407
Range of Motion . . . . .	408
Strength . . . . .	414
Neurovascular Examination . . . . .	416
Injury Recognition and Special Tests . . . . .	417
Acute Soft Tissue Injuries . . . . .	417
Chronic or Overuse Soft Tissue Injuries . . . . .	426
Traumatic Fractures . . . . .	428
Bony Defects Secondary to Repetitive Stress . . . . .	432
Dislocation and Subluxation . . . . .	433
Nerve and Vascular Injuries . . . . .	434
Structural and Functional Abnormalities . . . . .	439
Injury Examination Strategies . . . . .	446
On-Site Examination . . . . .	446
Acute Examination . . . . .	447
Clinical Examination . . . . .	450
Summary . . . . .	452
Learning Aids . . . . .	454

<b>Chapter 17</b>	<b>Knee and Thigh</b>	<b>459</b>
	Functional Anatomy . . . . .	460
	Regional Examination . . . . .	463
	Palpation . . . . .	463
	Range of Motion . . . . .	464
	Strength . . . . .	468
	Neurovascular Examination . . . . .	468
	Injury Recognition and Special Tests . . . . .	470
	Acute Soft Tissue Injuries . . . . .	470
	Chronic or Overuse Soft Tissue Injuries . . . . .	488
	Traumatic Fractures . . . . .	492
	Dislocation and Subluxation . . . . .	493
	Bony and Articular Defects Secondary to Repetitive Stress . . . . .	495
	Nerve and Vascular Injuries . . . . .	499
	Structural and Functional Abnormalities . . . . .	500
	Injury Examination Strategies . . . . .	505
	On-Site Examination . . . . .	505
	Acute Examination . . . . .	505
	Clinical Examination . . . . .	509
	Summary . . . . .	513
	Learning Aids . . . . .	514
<b>Chapter 18</b>	<b>Hip, Pelvis, and Groin</b>	<b>519</b>
	Functional Anatomy . . . . .	520
	Regional Examination . . . . .	523
	Palpation . . . . .	523
	Range of Motion . . . . .	524
	Strength . . . . .	527
	Neurovascular Examination . . . . .	528
	Injury Recognition and Special Tests . . . . .	530
	Acute Soft Tissue Injuries . . . . .	530
	Chronic or Overuse Soft Tissue Injuries . . . . .	531
	Traumatic Fractures and Hip Dislocation . . . . .	537
	Defects and Abnormalities Secondary to Repetitive Stress . . . . .	538
	Nerve and Vascular Injuries . . . . .	548
	Structural and Functional Abnormalities . . . . .	550
	Injury Examination Strategies . . . . .	554
	On-Site Examination . . . . .	554
	Acute Examination . . . . .	556
	Clinical Examination . . . . .	559
	Summary . . . . .	562
	Learning Aids . . . . .	563

<b>Chapter 19</b>	<b>Head and Face</b>	<b>567</b>
	Functional Anatomy . . . . .	568
	Regional Examination . . . . .	569
	Observation and Palpation . . . . .	569
	Range of Motion . . . . .	571
	Neurovascular Examination . . . . .	573
	Examination of Vision, Smell, and Hearing . . . . .	573
	Injury Recognition and Special Tests . . . . .	575
	Head Injuries . . . . .	575
	Eye Injuries . . . . .	589
	Ear Injuries . . . . .	591
	Nasal Injuries . . . . .	591
	Face and Jaw Injuries . . . . .	591
	Dental Injuries . . . . .	595
	Injury Examination Strategies . . . . .	596
	On-Site Examination of Head Injury . . . . .	596
	Acute Examination of Head Injury . . . . .	600
	Follow-Up (Clinical) Examination of Head Injury . . . . .	603
	Examination of Facial Injuries . . . . .	604
	Summary . . . . .	606
	Learning Aids . . . . .	607
<b>Chapter 20</b>	<b>Thorax and Abdomen</b>	<b>611</b>
	Functional Anatomy . . . . .	612
	Thoracic Cavity . . . . .	612
	Abdominal Cavity . . . . .	613
	Regional Examination . . . . .	614
	Palpation . . . . .	614
	Range of Motion and Strength . . . . .	615
	Neurovascular Examination . . . . .	615
	Auscultation . . . . .	615
	Injury Recognition and Special Tests . . . . .	618
	Thorax . . . . .	618
	Abdomen . . . . .	623
	Injury Examination Strategies . . . . .	628
	On-Site Examination . . . . .	628
	Acute and Clinical Examination . . . . .	630
	Summary . . . . .	634
	Learning Aids . . . . .	635
