

Contents

PART 1 Foundations of Stroke Rehabilitation, 1

- 1 Stroke Diagnosis, Acute Treatment, Prevention, and Medical Management, 2
- 2 Improving Participation and Quality of Life through Occupation, 47
- 3 Task-Oriented Approach to Stroke Rehabilitation, 59
- 4 Client Centeredness: A Survivor's Perspective, 80

PART 2 Maximizing Participation in Everyday Activities, 87

- 5 Enhancing Performance of Activities of Daily Living Tasks, 88
- 6 Adaptations for Managing Daily Activities with Hemiparesis, 120
- 7 Functional Mobility, 138
- 8 Gait Awareness, 176
- 9 Work after Stroke, 207
- 10 Driving and Community Mobility as an Instrumental Activity of Daily Living, 220
- 11 Parenting after Stroke, 248
- 12 Sexual Function and Intimacy, 262
- 13 Leisure Participation after Stroke, 280
- 14 Caregiving after Stroke, 293

PART 3 Maximizing Outcomes for Specific Problem Areas Following Stroke, 313

- 15 Psychological Aspects of Stroke Rehabilitation, 314
- 16 Approaches to Motor Control Dysfunction: An Evidence-Based Review, 332

- 17 Seated Postural Control: Supporting Functional Independence, 349
- 18 Standing Postural Control: Supporting Functional Independence, 381
- 19 Vestibular Rehabilitation and Stroke, 405
- 20 Upper Extremity Function and Management, 413
- 21 Rehabilitation Technologies to Promote Upper Limb Recovery after Stroke, 475
- 22 Edema Control, 496
- 23 Orthotic Devices after Stroke, 514
- 24 Managing Visual and Visuospatial Impairments to Optimize Function, 537
- 25 Impact of Neurobehavioral Deficits on Activities of Daily Living, 556
- 26 Treatment of Cognitive-Perceptual Deficits: A Function-Based Approach, 593
- 27 Seating and Wheeled Mobility Prescription, 627
- 28 Managing Speech and Language Deficits after Stroke, 653
- 29 Dysphagia Management, 670
- 30 Home Evaluation and Modifications, 690
- e31 A Survivor's Perspective II: Stroke, 709.e1

Electronic-Only Chapters on Evolve Related to [Chapter 26](#)

- 1 Self-Awareness and Insight: Foundations for Intervention
- 2 Managing Apraxia to Optimize Function
- 3 Managing Unilateral Neglect to Optimize Function
- 4 Managing Agnosias to Optimize Function
- 5 Managing Attention Deficits to Optimize Function
- 6 Managing Memory Deficits to Optimize Function
- 7 Managing Executive Function Impairments to Optimize Function
