<i>Foreword</i>	<i>xv</i>
<i>About the Authors</i>	<i>xvii</i>
<i>Acknowledgments</i>	<i>xix</i>
Chapter 1. Introduction	1
Rationale for This Book	1
Overview	3
Summary	8
References	9
Chapter 2. Structure and Function of the Auditory and Vestibular Systems	11
Introduction	11
Anatomic Terminology	12
The Peripheral Auditory System	13
The Temporal Bone	13
The Outer Ear	14
The Middle Ear	17
The Cochlea	20
The Auditory Nerve	37
The Central Auditory System	41
The Cochlear Nucleus	42
The Superior Olivary Complex	44
The Lateral Lemniscus	46
Inferior Colliculus	47
The Medial Geniculate Body	47
Auditory Cortex and Subcortex	48
The Corpus Callosum	52
The Efferent System	54
Structure	54
Function	54
Vascular Supply for the Auditory System	55

The Peripheral System	55
The Central System	56
The Vestibular System	56
Structure	56
Function	60
Vascular Supply for the Vestibular System	63
Summary	63
References	64
Chapter 3. Audiologic, Vestibular, and Radiologic Procedures	69
Introduction	69
Audiologic Assessment	70
Examination of Hearing Sensitivity and Speech Recognition Ability	70
Immittance Audiometry	73
Electroacoustic Measures	76
Auditory Processing Tests	80
Electrophysiologic Assessment	83
Vestibular Assessment	91
Electronystagmography and Videonystagmography	91
Vestibular Evoked Myogenic Potentials	95
Rotational Chair	97
Basics of Computed Tomography and Magnetic Resonance Imaging	98
Computed Tomography	98
Magnetic Resonance Imaging	100
Normal Anatomy and Clinical Applications of CT and MRI in the Evaluation of the Auditory System	102
Summary	111
References	111
Chapter 4. Outer and Middle Ear Disorders	115
Introduction	115
Aural Atresia	116
Introduction	116
Symptoms	116
Incidence and Prevalence	117
Etiology and Pathology	117
Site of Lesion	117
Audiology	118
Medical Examination	118
Audiologic Management	118
Medical Management	119
Case 4–1: Canal Atresia and Stenosis	120
Eustachian Tube Dysfunction	122
Introduction	122
Symptoms	123

Incidence and Prevalence	123
Etiology and Pathology	123
Site of Lesion	124
Audiology	124
Medical Examination	124
Audiologic Management	125
Medical Management	125
Case 4–2: Eustachian Tube Dysfunction	125
Otitis Media	127
Introduction	127
Symptoms	127
Incidence and Prevalence	128
Etiology and Pathology	128
Site of Lesion	129
Audiology	129
Medical Examination	129
Audiologic Management	130
Medical Management	130
Case 4–3: Otitis Media	131
Case 4–4: Otitis Media	134
Cholesteatoma	134
Introduction	134
Symptoms	137
Incidence and Prevalence	137
Etiology and Pathology	137
Site of Lesion	138
Audiology	139
Medical Examination	139
Audiologic Management	140
Medical Management	140
Case 4–5: Cholesteatoma	141
Case 4–6: Cholesteatoma	143
Paraganglioma Tumors	146
Introduction	146
Symptoms	147
Incidence and Prevalence	147
Etiology and Pathology	147
Site of Lesion	148
Audiology	148
Medical Examination	149
Audiologic Management	150
Medical Management	150
Case 4–7: Paraganglioma Tumor	151
Otosclerosis	154
Introduction	154

Symptoms	154
Incidence and Prevalence	154
Etiology and Pathology	154
Site of Lesion	155
Audiology	155
Medical Examination	155
Audiologic Management	156
Medical Management	156
Case 4–8: Otosclerosis	157
Temporal Bone Trauma	160
Introduction	160
Symptoms	160
Incidence and Prevalence	161
Etiology and Pathology	161
Site of Lesion	161
Audiology	162
Medical Examination	162
Audiologic Management	163
Medical Management	163
Case 4–9: Ossicular Disarticulation	165
Case 4–10: Temporal Bone Fracture	165
Other Disorders Affecting the Outer and Middle Ears	172
External Otitis	172
Exostoses and Osteomas	172
Tympanic Membrane Perforation	172
Tympanosclerosis	173
Ossicular Chain Discontinuity	173
Summary	174
References	174
Chapter 5. Inner Ear Disorders	181
Introduction	181
Temporal Bone Trauma	182
Introduction	182
Symptoms	182
Incidence and Prevalence	183
Etiology and Pathology	183
Site of Lesion	183
Audiology	183
Medical Examination	184
Audiologic Management	185
Medical Management	185
Case 5–1: Temporal Bone Trauma	186
Noise-Induced Hearing Loss	190
Introduction	190

Symptoms	191
Incidence and Prevalence	191
Etiology and Pathology	192
Site of Lesion	193
Audiology	194
Medical Examination	195
Audiologic Management	195
Medical Management	196
Case 5-2: Noise-Induced Hearing Loss	197
Case 5-3: Noise-Induced Hearing Loss	197
Ototoxicity	199
Introduction	199
Symptoms	202
Incidence and Prevalence	202
Etiology and Pathology	203
Site of Lesion	203
Audiology	203
Medical Examination	204
Audiologic Management	205
Medical Management	205
Case 5-4: Ototoxicity	206
Ménière's Disease (Endolymphatic Hydrops)	206
Introduction	206
Symptoms	209
Etiology and Pathology	210
Site of Lesion	211
Audiology	211
Medical Examination	212
Audiologic Management	212
Medical Management	213
Case 5-5: Bilateral Ménière's Disease	214
Case 5-6: Unilateral Ménière's Disease	216
Autoimmune Inner Ear Disease	219
Introduction	219
Symptoms	219
Incidence and Prevalence	219
Etiology and Pathology	219
Site of Lesion	219
Audiology	220
Medical Examination	220
Audiologic Management	220
Medical Management	220
Case 5-7: Autoimmune Inner Ear Disease	220
Age-Related Hearing Loss (Presbycusis)	221
Introduction	221

Symptoms	224
Incidence and Prevalence	224
Etiology and Pathology	224
Site of Lesion	224
Audiology	225
Medical Examination	225
Audiologic Management	225
Medical Management	226
Case 5–8: Age-Related Hearing Loss	226
Superior Semicircular Canal Dehiscence Syndrome	228
Introduction	228
Symptoms	228
Incidence and Prevalence	228
Etiology and Pathology	229
Site of Lesion	229
Audiology	229
Medical Examination	230
Audiologic Management	230
Medical Management	230
Case 5–9: Superior Semicircular Canal Dehiscence	231
Case 5–10: Superior Semicircular Canal Dehiscence	234
Sudden Idiopathic Sensorineural Hearing Loss	236
Introduction	236
Symptoms	237
Incidence and Prevalence	237
Etiology and Pathology	237
Site of Lesion	237
Audiology	238
Medical Examination	238
Audiologic Management	238
Medical Management	239
Case 5–11: Sudden Sensorineural Hearing Loss	239
Case 5–12: Sudden Sensorineural Hearing Loss	242
Other Disorders Affecting the Cochlea	242
Enlarged Vestibular Aqueduct Syndrome	245
Barotrauma	246
Meningitis	247
Cytomegalovirus	248
Diabetes Mellitus	250
Perilymph Fistulas	251
Summary	252
References	253
Chapter 6. Auditory Nerve Disorders	263
Introduction	263

Acoustic Neuroma	263
Introduction	263
Symptoms	264
Incidence and Prevalence	265
Etiology and Pathology	266
Site of Lesion	267
Audiology	267
Medical Examination	271
Audiologic Management	272
Medical Management	272
Additional Information	274
Case 6–1: Acoustic Neuroma	275
Case 6–2: Acoustic Neuroma	278
Case 6–3: Acoustic Neuroma	282
Auditory Neuropathy Spectrum Disorder	284
Introduction	284
Symptoms	285
Incidence and Prevalence	285
Etiology and Pathology	286
Site of Lesion	286
Audiology	286
Medical Examination	287
Medical and Audiologic Management	288
Case 6–4: Auditory Neuropathy Spectrum Disorder	289
Case 6–5: Auditory Neuropathy Spectrum Disorder	293
Vascular Loop Syndrome	296
Introduction	296
Symptoms	296
Incidence and Prevalence	297
Etiology and Pathology	297
Site of Lesion	297
Audiology	298
Medical Examination	298
Medical Treatment	298
Case 6–6: Vascular Loop Syndrome	299
Summary	303
References	304
Chapter 7. Disorders of the Central Auditory Nervous System	309
Introduction	309
Audiology	310
Anatomic Factors	310
Types of Tests	310
Brain Plasticity	311
Mass Lesions	311

Introduction	311
Symptoms	312
Incidence and Prevalence	312
Etiology and Pathology	312
Site of Lesion	313
Medical Diagnosis	313
Medical Management	313
Audiology	314
Vascular Disorders	314
Introduction	314
Symptoms	315
Incidence and Prevalence	315
Etiology and Pathology	315
Site of Lesion	316
Medical Management	317
Audiology: Mass and Vascular Lesions	317
Behavioral Test Procedures	317
Electrophysiologic Tests	320
Case 7-1: Temporal Lobe Tumor	322
Case 7-2: Temporoparietal Stroke	324
Degenerative Disorders	325
Introduction	325
Symptoms	328
Incidence and Prevalence	328
Etiology and Pathology	328
Site of Lesion	329
Medical Diagnosis	329
Medical Management	330
Audiology	330
Case 7-3: Multiple Sclerosis	334
Case 7-4: Alzheimer's Disease	336
Neurotoxicity	338
Introduction	338
Heavy Metals and Solvents	338
Hyperbilirubinemia	340
Audiology and Neurotoxins	342
Audiology: Heavy Metals and Solvents	342
Case 7-5: Mercury Poisoning	344
Audiology: Hyperbilirubinemia	344
Trauma, Head Injury (Traumatic Brain Injury)	347
Introduction	347
Symptoms	348
Incidence and Prevalence	348
Etiology and Pathology	348
Medical Diagnosis	349

Medical Management	349
Audiology	349
Case 7–6: Head Injury	353
Case 7–7: Head Injury	353
Temporal Lobe Epilepsy	358
Introduction	358
Symptoms	358
Incidence and Prevalence	359
Etiology and Pathology	359
Medical Diagnosis	359
Medical Management	360
Audiology	360
Case 7–8: Temporal Lobe Epilepsy	361
Case 7–9: Temporal Lobe Epilepsy	363
Surgical Interventions That Alter Central Auditory Function	364
Temporal Lobectomy	366
Commissurotomy	367
Case 7–10: Commissurotomy	368
Central Auditory Disorder Associated with Learning Difficulties	368
Introduction	368
Symptoms	370
Incidence and Prevalence	370
Etiology and Pathology	370
Site of Lesion	371
Medical Diagnosis	371
Audiology	371
Audiologic Management	371
Case 7–11: CAPD Associated with Learning Difficulties	372
Summary	372
References	374
Chapter 8. Tinnitus, Hyperacusis, and Auditory Hallucinations	385
Introduction	385
Tinnitus	386
Introduction	386
Symptoms	387
Incidence and Prevalence	387
Etiology and Pathology	387
Site of Lesion	388
Medical and Audiologic Evaluation	389
Medical and Audiologic Treatment	393
Hyperacusis	398
Introduction	398
Symptoms	398
Incidence and Prevalence	398

Etiology and Pathology	399
Site of Lesion	400
Medical and Audiologic Evaluation	400
Medical and Audiologic Treatment	401
Auditory Hallucinations	401
Introduction	401
Symptoms	402
Incidence and Prevalence	402
Etiology and Pathology	403
Site of Lesion	403
Medical and Audiologic Evaluation	405
Models for the Generation of Auditory Hallucinations	406
Medical and Audiologic Treatment	406
Summary	407
References	408
Chapter 9. Hereditary and Congenital Hearing Loss	413
Introduction	413
Genetics Overview	413
Autosomal Recessive Inheritance Pattern	415
Autosomal Dominant Inheritance Pattern	415
X-Linked Inheritance Pattern	419
Mitochondrial Inheritance	420
Multifactorial Traits	420
The Genetics of Hearing Loss	422
Syndromic and Nonsyndromic Hearing Loss	423
Congenital Malformations	437
External and Middle Ear Malformations	437
Inner Ear Malformations	438
Auditory Nerve and Internal Auditory Meatus	439
Central Auditory Nervous System Malformations	439
Genetic Evaluation and Counseling for Hearing Loss	443
Genetic Evaluation	443
Genetic Counseling	446
Summary	447
References	447
<i>Glossary</i>	455
<i>Index</i>	465
