

Contents

Preface
Acknowledgments

SECTION I Diagnosis and General Treatment Approach

1. Diagnostic Testing
2. Case Analysis and Classification
3. General Treatment Modalities, Guidelines, and Prognosis
4. Primary Care of Binocular Vision, Accommodative, and Eye Movement Disorders

SECTION II Vision Therapy Procedures and Instrumentation

5. Introduction and General Concepts
6. Fusional Vergence, Voluntary Convergence, and Antisuppression
7. Accommodative Techniques
8. Ocular Motility Procedures

SECTION III Management

9. Low AC/A Conditions: Convergence Insufficiency and Divergence Insufficiency
10. High Accommodative Convergence to Accommodation Conditions: Convergence Excess and Divergence Excess
11. Normal AC/A Conditions: Fusional Vergence Dysfunction, Basic Esophoria, and Basic Exophoria
12. Accommodative Dysfunction
13. Eye Movement Disorders
14. Cyclovertical Heterophoria
15. Fixation Disparity

SECTION IV Advanced Diagnostic and Management Issues

16. Interactions between Accommodation and Vergence
17. Refractive Amblyopia
18. Nystagmus
19. Aniseikonia
20. Binocular and Accommodative Problems Associated with Computer Use
21. Binocular and Accommodative Problems Associated with Acquired Brain Injury

- 22. Binocular and Accommodative Problems Associated with Learning Problems
- 23. Development and Management of Refractive Error: Binocular Vision–Based Treatment
- 24. Binocular Vision Problems Associated with Refractive Surgery

SECTION V Vision Therapy and Optometric Practice

- 25. Patient and Practice Management Issues in Vision Therapy
