<i>Preface</i>	<i>xi</i>	
<i>Acknowledgments</i>	<i>xv</i>	
<i>Video List</i>	<i>xvii</i>	
Chapter 1. Introduction to and Epidemiology of Swallowing Disorders	1	
Introduction	2	
Need for Early Intervention	9	
Epidemiology	10	
Biomedical Ethics: Principles and Practices	16	
Summary	17	
Discussion Questions	17	
Study Questions	18	
References	18	
Chapter 2. Anatomy and Physiology of the Swallowing Mechanism	21	
Introduction	22	
Central Nervous System	22	
Peripheral Nervous System	26	
Anatomy of the Swallowing Mechanism	29	
The Normal Swallow	44	
Cranial Nerves Involved in Swallowing	49	
Sphincters	50	
Central Neural Control of Swallowing	51	
Respiration and Deglutition	52	
Summary	54	
Discussion Questions	54	
Study Questions	54	
References	55	
Chapter 3. Swallowing Disorders Arising From Neurological Disorders and Other Diseases	57	
Introduction	58	
Neurological Disorders	67	
Swallowing Disorders Found in Critical Care Patients	76	
Esophageal Swallowing Disorders	77	
Infectious Diseases	84	
Medications and Swallowing Disorders	85	

Autoimmune Disorders and Diseases	88
Anterior Cervical Spine Disorders	90
Summary	94
Discussion Questions	94
Study Questions	95
References	96
Chapter 4. Swallowing Disorders Following Head and Neck Surgeries	99
Introduction	100
Neoplasms	101
Head and Neck Surgery	102
Laryngeal Surgery	109
Skull Base Surgery	112
Tracheotomy	113
Swallowing Disorders Following Radiation Therapy	116
Zenker Diverticulum	117
Summary	119
Discussion Questions	120
Study Questions	120
References	120
Chapter 5. Clinical Evaluation of Swallowing Disorders	123
Introduction	124
Evidence-Based Practice	124
Multidisciplinary Dysphagia Team	125
Swallowing Screening	125
Clinical Swallow Evaluation	128
Self-Assessments	129
Related Self-Assessments to Dysphagia	131
Summary	136
Discussion Questions	137
Study Questions	137
References	137
Chapter 6. Instrumental Evaluation of Swallowing Disorders	141
Introduction	142
Flexible Endoscopic Evaluation of Swallowing	142
Modified Barium Swallow	147
Modified Barium Swallow, Flexible Endoscopic Evaluation of Swallowing, and Silent Aspiration	150
Manometry and High-Resolution Manometry	150
Tongue Pressure/Strength Measurement	152
Other Instrumental Tests Associated With Swallowing Disorders	153

Summary	159
Discussion Question	159
Study Questions	160
References	160
Chapter 7. Treatment of Swallowing Disorders	163
Introduction	164
Evidence-Based Practice	164
Multidisciplinary Approach to Swallowing Therapy	165
Oral Hygiene	166
Compensatory Swallowing Therapy	167
Rehabilitative Swallowing Therapy	171
Prophylactic Swallowing Therapy for Head and Neck Cancer Survivors	182
Other Swallowing Treatment Methods	183
Summary	185
Discussion Questions	185
Study Questions	185
References	186
Chapter 8. Nutrition and Diets	189
Introduction	190
Dietitian and Dysphagia	190
Properties of Liquids and Foods	191
Oral Nutrition and Dysphagia Diets	193
Nonoral Diets	201
Malnutrition and Dehydration	205
Summary	207
Discussion Questions	207
Study Questions	207
References	207
Chapter 9. Swallowing in the Aging Population	211
Introduction	212
Aging Process Related to Swallowing	212
Changes in Swallowing	213
Nutrition in the Aging Population	214
Dementia	214
Feeding Assistance	217
Ethical Considerations	218
Summary	220
Discussion Question	220
Study Questions	220
References	220

Chapter 10. Early Feeding: A Collaborative Approach to Optimize Human Milk Intake 225

Introduction	226
Multidisciplinary Care Team	226
Lactation	227
Prematurity	236
Family Goals for Feeding	237
Caring for Diverse Families	239
Weaning	240
Cross-Disciplinary Educational Opportunities	241
Summary	241
Discussion Questions	241
Study Questions	241
References	242

Chapter 11. Pediatric Dysphagia: Assessment of Disorders of Swallowing and Feeding 245

Introduction	246
Etiologies	246
Epidemiology	249
Feeding Versus Swallowing	250
Prematurity	257
Milk to Solids	257
Taking a Case History	259
Intellectual Development	264
Summary	265
Discussion Questions	265
Study Questions	265
References	266

Chapter 12. Treatment of Feeding and Swallowing Disorders in Infants and Children 269

Introduction	270
Swallowing Phases	270
Collaborative Goal Setting	275
Growth Faltering	278
Nonoral Feeding	279
Case Illustrations Within Diagnoses	282
Support for Families	283
Summary	283
Discussion Questions	283
Study Questions	283
References	284

Chapter 13. Case Studies	287
Introduction	288
Diagnosis	289
Instrumentation	291
Personnel	292
Facilities	293
Case Studies From Voice and Swallowing Centers	293
Summary	305
Discussion Questions	305
Study Questions	305
References	306
 <i>Glossary</i>	 307
<i>Appendix 1. Reflux Symptom Index (RSI)</i>	329
<i>Appendix 2. Reflux Finding Score (RFS)</i>	331
<i>Appendix 3. Burke Dysphagia Screening Test</i>	333
<i>Appendix 4. The MD Anderson Dysphagia Inventory</i>	335
<i>Appendix 5. Eating Assessment Tool (EAT-10)</i>	337
<i>Appendix 6. Dysphagia Handicap Index (DHI)</i>	339
<i>Appendix 7. Voice Handicap Index-10 (VHI-10)</i>	341
<i>Appendix 8. Clinical Swallowing Examination Sample Form</i>	343
<i>Answers to Study Questions</i>	347
<i>Index</i>	349
