## Chapter 1

### Overview of Kinesiology Taping

Introduction

History of Kinesiology Taping

Kinesiology Taping Method

Comparison of Kinesiology Tape vs Conventional Athletic Tape

Tape Adhesion

Types of Kinesiology Tape

How Does Kinesiology Taping Work?

How To Use and Apply Kinesiology Tape

Benefits of Kinesiology Taping

Summary of the Uses for Kinesiology Taping

Precautions/Contraindications for Kinesiology Taping

Kinesiology Taping Applications

The Coloured 'Stars'

Taping and Fascial Tissue

## Chapter 2

### Kinesiology Taping Techniques for the Lower Limbs

Plantar Fasciitis/Heel Pain/Fat Pad Syndrome

Ankle Inversion Sprain/Peroneal Muscle Strain

Ankle Inversion Sprain/Peroneal Stabilisation

Self-taping for an Ankle Sprain

Achilles Tendinopathy

Self-taping for the Achilles Tendon

Calf Strain

Medial Tibial Stress Syndrome/Posterior Compartment Syndrome (Shin Splints)

Anterior Tibialis Tendinopathy/Anterior Compartment Syndrome

### Chapter 3

#### Kinesiology Taping Techniques for the Knee Joint

General Knee Pain/Patellofemoral Pain Syndrome

Full Knee Taping: PFPS/Patellar Tendinopathy/Osgood-Schlatter's Disease/Bursitis

Knee Malalignment Taping Technique

Lateral Knee Pain: Iliotibial Band Friction Syndrome/Lateral Meniscus/Lateral Collateral Ligament (LCL)

Medial Knee Pain: Medial Collateral Ligament/Medial Meniscus

### Chapter 4

#### Kinesiology Taping Techniques for the Anterior/Posterior Thigh

Hamstring Tightness/Fatigue

Hamstring Strain

Rectus Femoris Strain

Adductor Strain

### Chapter 5

#### Kinesiology Taping Techniques for the Lower Back, Trunk and Pelvis

Gluteal and Piriformis Pain

Lumbar Spine Pathology

Sacroiliac Joint Dysfunction

Quadratus Lumborum (QL) Strain

Rib/Intercostal Pain

### Chapter 6

#### Kinesiology Taping for the Upper Back, Neck and Chest

Mid-Thoracic and Rhomboid Pain

Posterior Cervical Pain

Cervical Spine: Levator Scapulae/Upper Trapezius Strain

Postural Taping

Pectoral Strain

### Chapter 7

## **Kinesiology Taping Techniques for the Upper Limbs**

Rotator Cuff Tendinopathy: Supraspinatus, Bursitis and Infraspinatus Pain

Acromioclavicular Joint Sprain

Biceps: Long Head and Short Head

## **Chapter 8**

### **Kinesiology Taping Techniques for the Forearm, Hand and Wrist**

Lateral Epicondylitis: Tennis Elbow

Medial Epicondylitis and Ulnar Nerve: Golfer's Elbow

Carpal Tunnel Syndrome

Intersection Syndrome and De Quervain's Tendinosis

Osteoarthritis (OA) of the First Carpometacarpal (CMC) Joint

## **Chapter 9**

### **Kinesiology Taping Techniques to Control Oedema (Swelling)**

Lymphatic System

Ankle Oedema

Knee Oedema

Haematoma/Oedema of the Thigh

Forearm Oedema

Shoulder Oedema

*Bibliography*
