1. Anatomy of Blood Vessels	1
• Components of Circulatory System	1
• Blood Vessels	1
• Lymphatic Circulation	8
2. Biomechanics of Circulation	10
• Classification of Circulation	10
• Anatomic and Functional Classification	10
• Closed Circuit	11
• Hemodynamics	11
• Application of Ohm's Law to Circulation	13
• Types of Flow (Laminar vs Turbulent Flow)	17
• Compliance of the Blood Vessels	19
• Windkessel Vessels and Effect	19
• Starling's Law	19
• Fahraeus-Lindqvist Effect	20
3. Epidemiology	21
• Risk Factors of Peripheral Artery Disease	23
• Venous Disorders	24
• Motivation for Awareness and Interest	25
4. Peripheral Vascular Diseases	27
• Definition	27
• General Classification	27
5. Arterial Disorders	29
Arteriosclerosis	29
• Definition	29
• Types	29
Atherosclerosis	30
• Definition	30
• Incidence	31
• Risk Factors	31
• Pathophysiology	32
• Clinical Features	34
• Differential Diagnosis	35
• Investigations	35
• Treatment	35

Aneurysm 37

- Definition 37
- Incidence 37
- Classification 37
- Etiology 38
- Risk Factors 38
- Pathophysiology 39
- Clinical Features 39
- Differential Diagnosis 40
- Investigations 40
- Medical Management 41
- Surgical Management 41
- Complications 42

Raynaud's Disease 42

- Definition 42
- Types 42
- Incidence 42
- Risk Factors 42
- Etiology 43
- Pathophysiology 43
- Clinical Features 43
- Investigations 45
- Medical Management 45
- Prophylaxis 46
- Surgical Management 46

Buerger's Disease 47

- Definition 47
- Incidence 47
- Prevalence 47
- Etiology 47
- Predisposing Factors 47
- Pathophysiology 47
- Clinical Features 48
- Diagnosis 49
- Differential Diagnosis 49
- Investigations 49
- Medical Management 50
- Surgical Management 50
- Complications 51

6. Venous Disorders

52

Superficial Vein Thrombosis 52

- Definition 52
- Etiology 52

- Pathology 52
- Clinical Features 52
- Investigations 53
- Treatment 53

***Deep Venous Thrombosis* 53**

- Definition 53
- Incidence 53
- Etiology 53
- Risk Factors 53
- Pathogenesis 54
- Clinical Features 54
- Investigations 54
- Differential Diagnosis 55
- Treatment 55
- Prophylaxis 55
- Complications 56

***Varicose Veins* 56**

- Definition 56
- Incidence 56
- Types 56
- Etiology 56
- Predisposing Factors 56
- Pathology 57
- Clinical Features 58
- Investigations 58
- Conservative Treatment 60
- Surgical Management 60
- Complications 60

***Pulmonary Embolism* 61**

- Definition 61
- Types 61
- Pathophysiological Effects 62
- Clinical Syndromes 62
- Clinical Features 63
- Investigations 64
- Medical and Surgical Management 65
- Prevention 66
- Physiotherapy Management 66

***Chronic Venous Insufficiency* 66**

- Definition 66
- Risk Factors 67
- Pathogenesis 67
- Clinical Features 68
- Examination Findings 70

- Investigations 70
- Differential Diagnosis 71
- Treatment 71
- Surgical Management 72

7. Lymphedema 74

- Definition 74
- Classification and Etiology 74
- Risk Factors for Development of Lymphedema 75
- Pathophysiology 76
- Clinical Features 77
- Medical Management 79
- Surgical Management 79
- Complications 80

8. Assessment of Patients with Peripheral Vascular Disease 81

Examination and Treatment of Peripheral Vascular Disease 81

- Examination 81

Special Tests in Peripheral Vascular Disorders 87

- Venous Filling Time 87
- Rubor of Dependency 88
- Claudication Test 88
- Cuff Test 89
- Homan's Test 89
- Moses Test 89
- Percussion Test 89
- Cough Test 89
- Trendelenburg Test 89
- Stemmer's Test 90
- Perthes Test 90

Investigations 90

- Arterial Studies 90
- Venous Studies 94
- Assessment of Edema 96
- Investigations in Lymphedema 99

Physical Therapy Findings in Vascular Disorders 101

- Physical Therapy Findings of Arterial Insufficiency 101
- Physical Therapy Findings of Venous Insufficiency 102

Outcome Measurements in Peripheral Vascular Disease 103

- Measurement of Severity in Arterial Disorders 103
- Measurement of Severity in Venous Disorders 103
- Assessment of Physical Performance in Arterial Disorders 104
- Outcome Measurement in Wound Assessment 108

9. Physiotherapy Management of Vascular Disorders 110***Physiotherapy Management for Acute Arterial Disorders 110***

- Goals 110
- Technique 111

Physiotherapy Management for Chronic Arterial Disorders 111

- Problem List 111
- Goals 111
- Physiotherapy Techniques 111

Exercise Prescription in Peripheral Arterial Disorders 114

- Rationale 114
- Effects of Aerobic Exercise in Peripheral Arterial Disease 115
- Effects of Resisted Exercise in Peripheral Arterial Disorders 115
- Exercise Guidelines 115
- Special Considerations 116
- Precautions 117
- Contraindications 118

Care of Anesthetic Foot and Hand 118

- Skin Assessment 118
- Prevention 120
- Education 120

Prevention of Vascular Diseases 121

- Diet 121
- Smoking 121
- Hygiene 121
- Activity 121
- Drugs 121

Physiotherapy Treatment in Acute Venous Disorders 122

- Goals 122
- Physiotherapy Treatment 122
- Prevention of Venous Thrombosis 122

Physiotherapy Management of Chronic Venous Disorders (Chronic Venous Insufficiency and Varicose Vein) 123

- Problem List 123
- Goals 123
- Management Techniques 123
- Precautions 124

Vascular Rehabilitation 125

- Definition 125
- Team Members 125
- Initial Assessment 125
- Outpatient Vascular Rehabilitation 125
- Upper Limb Training vs Lower Limb Training 126

Physiotherapy Management of Lymphedema 127

- Problem List 127
- Goals 127
- Techniques 128

Combined Physical Decongestive Therapy 129

- Manual Lymphatic Drainage 129
- Elevation 130
- Compressive Bandages, Garments, or Pumps 130
- Skin Care and Hygiene 130
- Exercise 130

Compression Therapy 134

- Definition 135
- Properties of the Bandage 135
- Classification 136
- Mechanism of Action 137
- Uses 138
- Bandaging Techniques 138
- Elastic Stockings 140
- Contraindication to Compression Therapy 141

Pneumatic Compression Treatment 141

- Definition 141
- Indications 141
- Parts 142
- Types 142
- Principles of Working 142
- Procedure 142
- Contraindications 143

Manual Lymphatic Drainage 144

- Objective 144
- Aims of Manual Lymphatic Drainage 144
- Principles of Manual Lymphatic Drainage 144
- Techniques 144
- Contraindications 145

Simple Lymphatic Drainage 145

- Aim of Simple Lymphatic Drainage 146
- Principles of Simple Lymphatic Drainage 146
- Technique 146
- Treatment with Simple Lymphatic Drainage 146
- Contraindications 147

Prevention of Lymphedema 147

- Prevention of Factors 147
- Skin Care 148

10. Surgeries in Vascular Diseases	149
<i>Arterial Surgeries</i> 149	
• Indications 149	
• Types of Surgeries 149	
<i>Venous Surgeries</i> 152	
• Sclerotherapy 152	
• Surgical Correction of Varicose Veins 154	
<i>Lymphatic Surgeries</i> 157	
• Indications 157	
• Lymphatic Bypass Procedures 158	
• Liposuction 158	
• Complications 158	
<i>Complications of Surgeries</i> 159	
• General Complications 159	
• Local Complications 159	
11. Physiotherapy Management for Arterial Surgeries	160
• Preoperative Physiotherapy 160	
• Postoperative Physiotherapy 160	
12. Physiotherapy after Venous Surgeries	162
• Physiotherapy after Sclerotherapy 162	
• Physiotherapy after Stripping of Veins 162	
13. Wound Management	163
<i>Wound Classification and Etiology</i> 163	
• Definition 163	
• Classification 163	
• Etiology 164	
<i>Wound Healing</i> 165	
• Definition 165	
• Physiology of Wound Healing 166	
• Factors Affecting Wound Healing 171	
• Factors Influencing Wound Healing 172	
<i>Management of Wounds</i> 173	
• Goals 173	
• Management 173	
14. Ulcer and Its Management	176
<i>Ulcer</i> 176	
• Definition 176	
• Classification 176	

Venous Ulcers 178

- Definition 178
- Etiology 178
- Pathology 179
- Clinical Features 179
- Management 180
- Prevention of Venous Ulcer Recurrence 181

Arterial Ulcer 181

- Definition 181
- Incidence 181
- Etiology 181
- Clinical Features 182
- Management 183

Diabetic Ulcer 184

- Definition 184
- Etiological Triad 184
- Predisposing Factors 185

Examination of Diabetic Foot 185

- Grading of Diabetic Ulcer 185
- Management 187

Decubitus Ulcer 188

- Definition 188
- Types 188
- Prevalence 189
- Etiology 189
- Pathology 190
- Clinical Features 190
- Assessment 190
- Prevention of Pressure Sores 190
- Medical Management 192
- Physiotherapy 192
- Surgical Management 192

Wound Assessment 192

- Undermining/Tunneling 193
- Subjective Examination 194
- Objective Examination 195
- Wound Measurement 197

Physiotherapy Management of Wound/Ulcer 198

- General Aims 198
- Local Aims 199
- Physiotherapy Management 199
- Methods of Treatment 199

15. Scar	207
<i>Definition, Types and Management</i>	207
• Definition	207
• Classification	207
• Pathophysiology	208
• Medical and Surgical Management	208
• Complications	209
<i>Assessment and Management of Scar</i>	209
• Consequences	209
• Assessment	210
