

Preface ix

1 Introduction to the Study of Speech Sound Disorders 1

by Nicholas W. Bankson, John E. Bernthal, and Peter Flipsen Jr.

An Evolving Area of Practice	1
A Working Framework	2
The Scope of the Problem	3
The Cause of the Problem	4
The Importance of the Problem	5
Approaching the Problem with Evidence	5

2 Normal Aspects of Articulation 7

by Ray Kent

Structure of Language	7
Fundamentals of Articulatory Phonetics	11
Coarticulation: Interactions Among Sounds in Context	36
Aerodynamic Considerations in Speech Production	40
Acoustic Considerations of Speech	42
Sensory Information in Speech Production	44
Summary of Levels of Organization of Speech	44
Concluding Note on Implications for Speech Acquisition	46
Questions for Chapter 2	48

3 Speech Sound Acquisition 49

by Sharynne McLeod

Relevance of Understanding Typical Speech Sound Acquisition for SLPS	49
Models of Speech Acquisition	50
How Speech Acquisition Data Are Obtained	59
Overall Sequence of Speech Sound Acquisition	64
Phase 1: Laying the Foundations for Speech	65
Phase 2: Transitioning from Words to Speech	70
Phase 3: The Growth of the Inventory	72
Phase 4: Mastery of Speech and Literacy	87
Factors Influencing Typical Acquisition of Speech	89
Conclusion: Understanding and Applying Typical Speech Acquisition	91
Questions for Chapter 3	92

4	Factors Related to Speech Sound Disorders	93
	<i>by Peter Flipsen Jr., Nicholas W. Bankson, and John E. Bernthal</i>	
	Structure and Function of the Speech and Hearing Mechanism	93
	Motor Abilities	105
	Cognitive-Linguistic Factors	111
	Psychosocial Factors	116
	Conclusion	121
	Questions for Chapter 4	122
5	Classification and Comorbidity in Speech Sound Disorders	123
	<i>by Peter Flipsen Jr., John E. Bernthal, and Nicholas W. Bankson</i>	
	Organically Based Speech Sound Disorders	123
	Childhood Apraxia of Speech	132
	Speech Sound Disorders of Unknown Origin	136
	Comorbidity	144
	Conclusion	149
	Questions for Chapter 5	149
6	Assessment: Data Collection	150
	<i>by Nicholas W. Bankson, John E. Bernthal, and Peter Flipsen Jr.</i>	
	Speech Sound Sampling	150
	Screening for Speech Sound Disorders	151
	Comprehensive Speech Sound Assessment: The Assessment Battery	153
	Assessment in Very Young Children	166
	Related Assessment Procedures	168
	Conclusion	175
	Questions for Chapter 6	175
7	Assessment: Decision Making	176
	<i>by John E. Bernthal, Nicholas W. Bankson, and Peter Flipsen Jr.</i>	
	Case Selection	176
	The Nature of the Problem	188
	Target Selection	190
	Other Factors to Consider in Intervention Decisions	194
	Computer-Assisted Phonological Analysis	195
	Case Study: Assessment Data	196
	Conclusion	200
	Questions for Chapter 7	200
8	The Basics of Remediation and Evidence-Based Practice	201
	<i>by Nicholas W. Bankson, John E. Bernthal, and Peter Flipsen Jr.</i>	
	Basic Remediation Considerations	201
	Facilitating Generalization	206
	Dismissal from Instruction	213
	Some Basics of Evidence-Based Practice	215

Conclusion	222
Questions for Chapter 8	222

9 Motor-Based Treatment Approaches 223

by Peter Flipsen Jr., John E. Bernthal, and Nicholas W. Bankson

Approaches to Intervention	223
Treatment Continuum	224
Motor Learning Principles	225
Optimizing Learning: The Challenge Point Framework	227
Teaching Sounds/Establishment	228
Beyond Individual Sounds	235
Core Vocabulary Approach	242
The Use of Nonspeech Oral-Motor Activities	243
Childhood Apraxia of Speech	244
Treating Older Children and Adolescents	252
Case Study Revisited: Motor Perspective	257
Questions for Chapter 9	258

10 Linguistically Based Treatment Approaches 259

by Peter Flipsen Jr., Nicholas W. Bankson, and John E. Bernthal

Minimal Pair Contrast Therapy	260
Cycles Phonological Pattern Approach (CPPA)	266
Broader-Based Language Approaches	269
Remediation Guidelines for Linguistically Based Approaches	273
Case Study Revisited: Linguistic Perspective	274
Questions for Chapter 10	276

11 Language and Dialectal Variations 277

by Brian A. Goldstein and Aquiles Iglesias

Dialect	277
Characteristics of American English Dialects	279
Phonology in Speakers of Language Varieties Other Than English	285
Phonological Development in Bilingual Children	292
Assessment Considerations for Children from Culturally and Linguistically Diverse Populations	294
Intervention for Speech Sound Disorders in Children from Culturally and Linguistically Diverse Populations	296
Summary	299
Questions for Chapter 11	300

12 Phonological Awareness: Description, Assessment, and Intervention 302

by Brigid C. McNeill, Laura M. Justice, Gail T. Gillon, and C. Melanie Schuele

What Is Phonological Awareness?	302
Phonological Awareness as Literacy Development	304
The Development of Phonological Awareness	305
Phonological Awareness Development and Reading	307
Phonological Awareness and Speech Sound Disorders	309

The Role of the Speech-Language Pathologist	311
Assessment	312
Intervention	316
Phonological Awareness Experiences for Preschool Children	319
Promoting Phonological Awareness in School-Age Children with Speech Sound Disorders	320
Questions for Chapter 12	324
Appendix A: Procedures for Teaching Sounds	325
Appendix B: Activities for Facilitating Phonemic Awareness in School-Aged Children	329
Appendix C: Accent Modification	331
References	334
Index	369
